

# THE WAVE EATER

Volume 3 Issue 2

A Publication of Michigan Masters LMSC

Summer 1995

## Notes of Thanks

**W**ell, the 1995 Michigan Masters State Meet is now history. Over 230 swimmers participated in the event which spanned 2 weekends at 2 different venues. Over 70 swimmers took advantage of the opportunity to swim at both pools. Seventy-eight swimmers took us up on our offer to swim the mile, a new record for participation in that event.

A meet like the State Meet takes great deal of hard work and planning by many people. On behalf of Richard TenHoor and me I'd like to thank these people. (I may miss someone but better to get most than not to try at all).

Thanks to Bill & Phyllis Reid for volunteering to input, seed and score events as well as assist in the arrangements for the use of Canham Pool. Thanks to Mark Lambert at Canham Pool for his help with timer arrangements as well as providing the pool to us at a very reasonable cost. As well as, Tracey Crane who stepped in at Ann Arbor with minimal notice and kept all the timers on track. Thanks to my wife Judy Danhof who spent hours sorting entries, tallying swimmer information as

lyn Early and others who pitched in to help wherever they could, whether timing, assisting with awards or registration. Thanks to Lynn Benson (Community Pool Director, Rockford) who will someday have a great Masters team in Rockford to help with the next meet (2003?). Thanks to George Newman for finding additional officials on short notice (for Ann Arbor) as well as making the meet move quickly and smoothly. Thanks to Brad Henson who ended up with far more work at the meet than first expected but took it all in stride. Finally THANKS to all the swimmers who attended and patiently waited for results and awards. Some of you even sent Thank You cards which were very much appreciated.

If you are due some medals or ribbons from the meet and you want them sent to you, please send me a list of what you are to receive along with \$1.00 per medal (for ribbons just send a self-

## EDITOR NOISE

**I** have been asked several times why "The Wave Eater" letters are snow capped. Well, you can look at it two ways, first from the standpoint that this IS Michigan and after living here most of my life I have come to understand that snow can be expected in almost ANY month. Or secondly, it's in honor of those who do triathlons and/or "open water" swims and have learned that, in general, there's no such thing as a warm lake in Michigan, except for perhaps two days in July! Hence, the snow on the letters!

### Annual Meeting Notes

I happen to think that "meeting minutes" are incredibly BORING, therefore I'm just going to hit the high points. If you would like a full set of meeting minutes let me know and I'll send them along to you.

We had a record number of attendees this year. Thank you one and all for taking the time to attend.

The meeting began with Mark Lambert from U of M talking about the plans for the upcoming (Aug.1996) Long Course Nationals. At this time there will be no open water swim in

## PRESIDENTIAL POINTS

**T**his is the last column that I will write to you as President. According to the By-Laws, Andy Donato takes office on October 1, 1996. The Fall Newsletter will "hit the news stands" a few weeks earlier than October 1. However I want him to communicate to us his hopes and plans for us for the next two years in that newsletter. We have had a good two years and I am sure that Andy's tenure will be great to us as well.

I am proud of a number of achievements of the last two years. We grew in both membership and meet participation to record levels. The state saw new teams formed and new meets established. We started clinics and other activities such as Swim Michigan and the Meet Circuit which hopefully will grow and mature in the years ahead.

The achievement of that last two years that pleased me the most is the increasing participation in the annual meetings. At Rockford we had over 60 people attend and participate in the meeting. I hope that this trend will continue.

The LMSC was established to work for all of us. You have a great set of officers for the next two years. We will do our best work for you if we know what you want us to do. Talk to us at meets or call us with your opinions, criticisms and praise. With the nationals at Michigan next summer it will be an exciting time to be a Michigan Master's Swimmer. Enjoy the ride but push a little too!

With all of the

Con't from P. 1, column 3

looking at other options as well. Parking should be adequate as school is out and Mark will have employees refrain from using natatorium space that week.

Don Korten, Treasurer, reported that we should finish the year about \$1000 ahead of last year and that revenues for the year should be about \$9000. Cash will be maintained in that account in case of the need for money "up front" for Nationals expenses. After the Nationals the membership dues may be reevaluated.

***Skip stated that Saginaw Valley believed they deserved to have the State Meet next year.***

Mark Lambert proposed the formation of a meet evaluation committee; to be made up of four LMSC members and chaired by the Sanctions Chairman. It would be formed in the fall and its purpose would be to review the execution of all meets sanctioned by the Michigan LMSC. The committee will report during the annual LMSC meeting any rules that have been consistently broken and what changes in the sanctioning process they recommend. This proposal was approved by a voice vote.

Next, Bill Reid proposed that in addition to **sanctioned** meets paying a fee of \$2.00 per swimmer to the LMSC, that **recognized** meets pay a fee of \$1.00 per swimmer. For this, as with the sanctioned meets the LMSC would promote their meet as well as print their results. However, the recognized meets would supply their own entry cards and awards. This too was passed by a voice vote.

Mark Lambert proposed a one year suspension of the State Meet rotation plan. The suspension was requested so that the Nationals meet committee could hold a tune-up meet as the '96 State Meet to test plans for Nationals. Once the question was called, the proposal was passed by a voice vote.

Following this approval bids for the 1996 State Meet were considered. Mark Lambert proposed U of M as the sight. In his bid he promised to have 16 lanes available for competition for the entire meet as well as having two score boards and two timing systems, swim vendors on sight and a pasta party. Mark also promised that in addition to the sanction fee of \$2 per swimmer the State Meet Committee would rebate an additional \$3 per swimmer to the LMSC to help defray the expenses of the Nationals. This would mean approximately \$1500-\$2000 (net) to Michigan Masters.

Skip Thompson presented a bid for Saginaw Valley as Bob Jennings was on vacation. Saginaw has one 50 meter pool with one bulkhead, one scoreboard and one timing system. It was discussed that if the meet was swum Short Course Meters (SCM) the pool could be configured as two 25 meter pools. After describing Saginaw Valley's experience at running meets Skip said that Saginaw Valley believed that they deserved to have the meet and added that they might not bid again next year. If the bid was granted he agreed to the following items:

1. There would be no charge to spectators.
2. Street shoes would not be allowed on the deck or

## OUT OF WATER

By Beverly Cornell

(Editor's note: We want to start letting you know what Masters do when they are not swimming.)

**M**asters swimming is just one of my special joys. Another very enjoyable part of my life is being a wildlife rehabilitator. I am licensed through the state and federal government. For the past 8 years, with the help of my terrific husband Tom, we have taken in baby raccoons, squirrels, cottontails, assorted birds, ducks and geese. Along with rehabilitating, I give wildlife and domestic seminars. I also enjoy going into the schools and teaching the children about the do's and don't about wildlife. Tom and I have had some wonderful experiences raising these little guys. The baby raccoons are our favorite to raise. They are very cute and cuddly little creatures. We become very attached to these cute little personalities, its hard to release them. But, by the date of their release time, they are getting pretty prickly and need to be in the wild.

At this time we have two baby raccoons that are under one month old. Their names are "Laura and Hardy". (Editor note: Bev told me that when she first got these little ones they had to be fed with a "preemie" nipple because they were so tiny. She and Tom also took them to Cleveland with them for Easter to visit family.) Our household has a few domestic animals to keep us company when we don't have orphan wildlife to tend to. Tom and I have a 24 year old son, Kirk, who is finishing his last year of his Master's degree at Wayne State in Anthropology.

Be  
consistently  
persistent.

Con't from P. 2, column 1

good things in Michigan, we didn't get it 100% right. Even with our increases in membership, meets and activities we had almost 300 swimmers registered in 1994 who are not yet registered for 1995 and almost 200 swimmers from 1993 who "strayed from the fold". I'm sure that some of them felt family or career pressures that kept them away. But we all need to work to keep our friends swimming and/or exercising. Exercise may not prolong life but definitely has been proven to improve the quality of life. You can't do a bigger favor for a friend than to help them to stay active. Perhaps activities aimed toward fitness swimmers or maybe more social activities or events other than swimming may appeal to some of these missing folks. Your new officers have some great new ideas for you. Help and encourage them as you did me and give them any ideas that you have.

Finally I want to thank all of you for your help, support and encouragement during my time as president. I enjoyed very much the last two years and you all made the time fun. I hope that you'll have a great Summer. See you at Meets!!

Con't from P. 2, column 3

- required in the stands. They would be required in the concession area. However, awards would be set up so that they could be picked up without shoes.
- There will be "open" events as there have been in the last three state meets.

A vote was taken on the bids and Saginaw Valley won. It was later voted that this meet would be swum *SHORT COURSE METERS* to allow them to utilize two pools instead of just one. (One lane per pool will be kept open for continuous warm-up.)

The following officers were elected:

President:(automatic succession)

Andy Donato (SOS)

President-Elect:

Don Kroeger (OH-MI)

Secretary:Karen Pearson (LAFS)

Treasurer: Don Korten (BCYM)

Sanctions: Tom Hunt (SOS)

Registrar: Bill Reid (JAMS)

Newsletter Editor: Phyllis Reid

Rick Chaney requested that the LMSC purchase the computer interface for the Colorado timing system to help meets run more smoothly .(Cost about \$250) Although no one has used the software, the expenditure was approved by a voice vote.

Meeting adjourned.

THAT YOU MAY FAIL IS  
NOT A SUFFICIENT REASON  
FOR NOT TRYING!

## HEARTFELT

by Fred Nelis

*(Editor's note: Bill had spoken to Fred prior to the State Meet and knew of his condition and as a result I asked Fred to write about his experience. It shows us all how important swimming can be.)*

**C**hronic Idiopathic Cardio-myopathy, what a mouthful. Well, those are the terms the doctors used to describe my condition January 7, 1994. For the layman, simply put I had heart failure at age 38.

Heart failure is something "old folks" die from. But I was experiencing first hand the feeling of drowning. How terrifying for a swimmer! In January 1994, I was hospitalized for four days. My condition improved remarkably after taking some "water pills". The fluids around my heart and lungs quickly drained, and I do mean drained, to eliminate the pressure and reduce swelling.

My condition was evaluated by a number of doctors, and it was recommended that I go to a transplant facility. Transplant!? "You mean like my heart?" So off I went to Henry Ford Hospital in Detroit. When I arrived for my preliminary consultation (which lasted two days), I was introduced to the "transplant team".

Hey, this is getting serious. After a day of tests and needles, I was given a stress test. This is no ordinary test. The purpose of the test is to go to a point of exhaustion. Can you imagine?!

Now I should

Con't on P. 5, column 3

## 30 Year Reunion

by Dennis McManus

*(Editor's note: Told by Dennis at my request.)*

Thomas Wolfe said, "You can't go home again," and in one way he was right — the old George A. Dondero High School swimming pool (in Royal Oak) has been filled and replaced by a sparkling, modern, 8-lane replacement pool has motivated former 1965 Dondero Swim Team Mmembers, Tom Hunt, Jay Mahler, Ralph Davis and Dennis McManus to "reestablish" their senior medley relay team.

Tom Hunt (Backstroke) and I (Fly) got into Masters swimming in early '88 primarily to lose weight and stay fit. We bacame thoroughly hooked after attending the Pan Pacifics in Indianapolis. It was then that we began actively soliciting friends and swimming acquaintances to join our local team (then based out of Fraser HS).

Once the new aquatic center at Dondero was completed in '93, Tom and I were able to convince close friend Ralph Davis (freestyle) to join Masters as well as, former classmate, Gary LaDue ('67). From this core the former teammates we were able to entice several members of SOS to join our workout schedule. This wing of SOS has attracted new members as a result of networking and a fantastic pool facility! Jay Mahler (breaststroke) was recruited by Skip Thompson. At the Brighton Meet, Jay was astonished to encounter former teammates Tom and me participating as SOS members. This mini-reunion set the stage for the possible Medley Relay reunion at Rockford.

Until we all arrived at the Rockford State Meet, the idea of putting together the '65 Dondero Medley Relay Team was never clearly discussed. We collectively realized the potential and suggested to Skip that this 160+ relay team was prophetic.

— And who says nostalgia isn't what it used to be —

We are especially grateful that Masters Swimming provided the opportunity to relive the past one more time. This reunion reminds of us of the very special time and place we all shared at Dondero — and where we began to learn about life. The four of us are products of that environment and influence and so maybe its not a matter of "going home" because, in a sense, we never really left it.

(Team Photo from the '95 State Meet appears on the back page of the newsletter.)

Con't from P. 1, column 2

address stamped envelope). My address is: 4295 Carolyn St. Muskegon, MI 49444.

Now, for one last item. As with any large meet there were some articles of clothing or swim gear left behind. If you are missing any of the following call Ken Danhof at (616) 739-5592: 1 pair NIKE shoes with socks (size 13), 1 pair black flip-flops, 1 pair dark Speedo goggles, 1 pair clear Speedo goggles, 1 white towel, 1 black Speedo bathing cap, and 1 pair "shorty" socks.

Best Wishes to all swimmers for a great summer and successful 1995-96 season. See you at the Long Course Nationals in Ann Arbor in August  
1996.

THANK  
YOU

## INDOOR SAILING?

"Here's a new sport that's bound to have fans: indoor sailing."

Had you walked into Canham Natatorium on one Saturday last month you would have thought you were hallucinating. There were two dozen electric fans (each 3 1/2' in diameter) blowing 12-foot boats around an America's Cup-style course in Chevrolet's Stadium Sailing Championship.

This series is touring 16 cities nationwide, including Ann Arbor. The finalist from each city advance to the finals on May 13 in San Diego coinciding with the real America's Cup finals.

The "stadium" boats were modeled after the 12-meter America's Cup boats used from 1958-1987. Each sailor sits in the boats, steering with their feet, controlling both jib and mainsail by hand.

It was quite a sight to see... 12-foot boats sailing where I had last seen Masters swimmers swimming the month before. Approximately 500 spectators were in attendance.

## More Later...

There are two events to keep in mind. First, we are working on a Fall Football Week-end Stroke Clinic for the end of September. Secondly, on January 20th there WILL be an afternoon only Stroke Clinic. Both will be held at the UofM.

*Your Editor*

## Keeping Track

by Coach Emmett Hines

(Reprinted from the GULF MASTERS  
NEWSLETTER - Feb. '94)

Whether you are a competitive swimmer or fitness swimmer you should consider keeping a swimming diary. A swimming diary is a notebook you use to help you keep tabs on where you are, what you are doing and where you are going in the sport of swimming. Get into the habit of taking notes on a workout-by-workout basis.

If you've never done this kind of thing before you might start with simple, easily quantifiable items like total yardage for the workout, stroke counts, fastest times, T-30 performances, heart rates etc.

Con't on P. 7, column 3

## JCC Gets Fit!

Dawn Hewitt from the Jewish Community Center sent me her team results from the (national) February Fitness Challenge that Scott Rabalais headed:

Jerry Chandler Placed 5th  
(35-39 age group)  
85.15 miles

Mark Gruskin Placed 31st  
(40-44 age group)  
34.60 miles  
Richard Gale Placed 6th  
(70-74 age group)  
26.70 miles

*Congratulations gentleman!!*

Keep up the  
good work!

Con't from P. 4, column 1

explain that *heart failure* is the inability of the muscle to contract with any pressure. A normal heart pumps at a 55% ejection fraction - which means the amount of blood going out of the heart with each beat, and below 30% is considered severe. At diagnosis, my heart was operating at 10% ejection fraction, or 1/5 of normal.

Now back to the stress test. First I was hooked up with EKG leads, then the mouthpiece for recording my oxygen intake and carbon dioxide output, and last the blood pressure cuff. After the treadmill starts, every three minutes the elevation and speed are increased. The concern doctors have for my type of injury is for the heart to overwork to the point of developing irregularities. So here I am after 15 minutes (the first time on a treadmill) feeling like the last 25 yards of a 200 fly, being asked how I feel. I don't know about medicine sometimes!

The doctors were startled by the results of the tests. Never before had someone with a similar condition done so well on a stress test. They were even more surprised to find out that I had been working out at the pool four days before I was hospitalized.

Even with the test results in hand, I was placed on the active transplant list to start accumulating time on the list. I was told there would probably not be much improvement in my condition. I was to maintain my health, and not to swim! Along with drug therapy, I was to be on a low sodium diet and to get plenty of rest.

Con't on P. 6, column 2

# SWIM WHERE?

By Jennifer Parks, Consulting with  
Ron Pohlonski & John Bullock

**W**hen I was a young swimmer I went to camp on Burt Lake. Each week we had a mile swim on our 50 meter course. Everyone moaned and groaned, but secretly I LOVED it! Most of the swimming was for speed... 50's, 100's, 200's. Years later Masters swimming started to have more and more "Open Water" swims and I became hooked for life!

One of the very first "Open Water" swims I did was in a 2-Mile swim in Atlantic City with Gayle Champagne. We had so many people swimming over us that we ended up with bruises and scratches all over us when we finished. Sound inviting? It really is once you do the first one... Lake Leelanau always had a good race until they decided one year to use BLACK balloons as markers. And for those of us who are extremely nearsighted, there was no way to see those balloons on the water. Last year Marilyn Early started the Harbor Springs Coastal Crawl. This year it will expand to include a 3 Mile swim in addition to their 1 and 2 Mile races. You should consider swimming this one on August 6th because as Dave Englebert (formerly of Lansing) said, "it was the first time we could swim and sightsee at the same time". The course runs parallel to the point where there are many beautiful homes (it's a down & back course).

So you ask, "How do I get ready for an "open Water" swim? Mentally as well as physically? First, I try to swim at least one long, straight swim for every three or four workouts I do. I build from a straight 20 minutes to 30 to 40 minutes and finally, about a week (or

Con't from P. 4, column 3

I felt better than the doctors said I should. After suffering through February in cardiac rehab class, I started swimming again. By March I was doing 1000-1500 yards, three times a week. A far cry from the previous fall when I was doing 15,000-20,000 yards a week.

I was starting to feel stronger. I watched my heart rate like a hawk, never going over 125 bpm. In late March I went back to Henry Ford with test results showing not much improvement. I left Detroit with a stern warning no more swimming. The issue was health vs. fitness.

Another month of no braining in the rehab room, and off again to the pool. I had had enough. Going back to work for limited hours helped. My family gave me a dog so I could

***...I was taken off the active  
transplant list. That didn't  
bother me a bit!***

walk! I was very restless. I knew I could do more of everything, but had the fear of God put in me by the doctors. The health aspect of it just wasn't cutting it.

By May I was training again 2000 yards a day three times a week, keeping a close watch on my heart rate (130-135). Then I found a testing facility that would perform a stress test in a flume. Training accelerated, soon I was up to 3,000 yards four times a week. I had a June 22 appointment at the Presbyterian Hospital in Dallas,

Texas. Before I swam my ejection fraction was measured at 30%, a tremendous improvement from January's 10%. The test was somewhat different from a pool swim because there are no walls. I just swam and they played around with the water flow speed, while I was hooked up to a 10 lead EKG and a mouthpiece for measuring oxygen intake and carbon dioxide output. The ultimate in solo swimming, and similar to snorkeling breathing. This was again a maximum exercise effort. The results were where I had hoped; no heart irregularities and my maximum effort was higher than the exercise bike or treadmill. Because of this stress test and one earlier in Detroit, I was taken off the active transplant list. That didn't bother me a bit.

My most recent appointment at Henry Ford was in Dec. 1994. My ejection fraction remained the same as June (30%), but my fitness level rose 20% in six months. The medical attention I received has been super, a little conservative perhaps, but very personal.

I have been especially blessed this past year. The opportunity to compete again after earlier anticipation of never racing again made this year's State Meet very special. I even had some reasonable times. Next year Nationals! Swimming has played a major role in my recovery so far, and in the progress I have made, and as long as I am able, ***I'll be at the pool!!***

Con't on P. 7, column 1

Con't next col.

Con't from P. 6, column 1

ten days) before the swim, I do almost the same amount of time I anticipate doing in the race. For example, I might swim 1 1/2 hours for a 5K race. I also do lots 400's with very little rest (i.e. 10 x 400 on 6:30 or 6:45 or 7:00 - and keep them at 6:20, 6:15 or 6:10. Then lots of 30 x 100's, maybe with 10 sec. rest for 10, 15 sec. rest for the second ten and 20 sec. rest for the third 10.)

Ron and John train with lots of gear on: shoes for kicking and do lots of pulling. You might go out trying to really press your first 400 of a long pool swim. This will help condition you to "move out" well at the beginning of the open water swim. It is better to "push" a bit at the beginning because it's difficult to catch up much later.

During the 5 Mile Swim in Lake Minnetonka 2 summers ago, my boat people took me over *golden weeds* and they are much better than green weeds. First of all, they are much prettier to swim over and secondly they aren't yucky and slimy. This brings my to the fact that it's almost imperative that you train some in a lake. (I do, in Lake Ludington). This way you get "used" to cold water, learning to focus on landmarks (in preparation for sighting buoys) and walking in mud, weeds and slime etc..

As you prepare yourself for an open water swim make sure you have a comfortable suit (that doesn't rub) and maybe 2 caps to help retain heat. You must NOT get hung up on the start with all bumping, kicking, splashing and swimming

Con't next col.

over people. Go with the flow and it's fun to push yourself a little. You'll find if you eat a "comfortable" amount of food and drink fluids you'll stay warmer. It also helps to swim with a partner, buddy or group (Ron says to draft) and then you have company on your way around the course. Really push the last 1/2 to 1/4 mile (of a 2, 3 or 6 mile) and you'll feel really great at the end of the race. Remember to "swim down" and stretch alot afterwards so that you don't tighten up and get too sore. Also sure to replenish your fluids when you finish. This may sound excruciating, but it is no. If you ...

***"...expect adveristy,  
consider it a  
challenge"!***

In closing, try an "Open Water" swim this summer or fall. It'll enhance your pool races, give you a base and you'll have stories for life about your swim.

*(Editors note: At worst you might meet a new friend or two!)*

**One can never  
consent to creep  
when one feels  
an impulse to soar.**

*Helen Keller*

***Don't tell me  
how good you  
are; let me find  
it out myself.***

Con't from P. 5, column 2

As you get used to jotting down a few notes after each workout you might include comments on other things: your emotional and physical states, what you've been eating, amount of sleep, resting heart rate, stress level at work etc. Include your preception of how these relate to that day's workout or your pperformance in competition. Put down your goals and make notes on your progress toward those goals.

"Why would I want to do that? you ask. "I spend more time than I can afford at this swimming thing as it is," you say.

Quite simply, it will make the time you spend in the water more productive. This happens for a number of reasons: You will be more aware of what you are doing in the pool during levery workout. Things that were barely on the periphery of your consciousness in the past will come sharply into focus if your goal is to gather useful information. You will find that the mere fact that you will write something down will make you more alert to it - that's why we were drilled to take notes in school.

## 1995 USMS/Michigan Registration

This registration form will be in effect from May 1, 1995 through October 31, 1995.

Effective Dates	Michigan Fee	USMS Fee	Total Fee Due
05/01/95 - 08/31/95	\$10.00	\$15.00	\$25.00
09/01/95 - 10/31/95	\$ 5.00	\$10.00	\$15.00

Benefits of membership include: Secondary accident insurance in all USMS/Michigan sanctioned events and supervised practices where all participants and coaches are USMS/Michigan registered members, subscription to SWIM magazine during membership year, and all Michigan mailings including the quarterly newsletter, *The Wave Eater*.

Swimmers must be a member of both USMS and Michigan Masters.

**Make checks payable to Michigan Masters.**

September 10	Big Shoulders Open Waters Swim	Chicago	IL	Bob Young 708-594-7000

**Long Course Mile/Pentathlon June 11, 1995 Kalamazoo, MI**  
**USS Approved and USMS Recognized**

**Entry Procedure:** Age on June 11, 1995, determines age for the meet. Use one entry form for each swimmer entering the meet; copy the entry form as needed. Entries postmarked on or before Monday, June 5, are accepted as early entries; entries postmarked after this date are considered deck entries (add \$2.00 to entry fee). Mail all entries to:

Vince Gallant  
323 Garland Ave.  
Kalamazoo, MI 49001

**Eligibility:** This meet is open to all swimmers, regardless of affiliation. USMS cards may be purchased at the meet.

**Seeding and Scratches:** Positive check-in is required for all swimmers and events. Swimmers will be given their cards without heat and lane assignments. At the end of the check-in period, all swimmers who have not checked in will be scratched and the heats seeded. Seeded heat sheets will be posted in the pool area and all swimmers can mark their cards with their heat and lane assignments.

Swimmers who have entered the meet by mail and find that they are unable to attend may scratch by telephone. Scratches will be accepted at (616)349-9873 until Saturday night at 9:00 p.m. Scratches can be made the day of the meet at (616)337-0232 from 8:15-9:45 a.m. If you scratch by phone, we will refund \$6.00 of your entry fee.

Seeding will be slow-to-fast in all events except the 400 IM and 1500 Free. The 1500 may be swam with two people per lane.

**Warm-up Procedures:** USS Rules guide the warm-up procedures. **Swimmers are to enter the water feet first in a cautious manner;** safety of all swimmers is paramount. Sprint lanes, in which racing starts may be performed, will be designated and opened by the officials with approximately ten minutes remaining in the 1500 m. warm-up and one half hour remaining in the pentathlon warm-up.

**Refreshments:** Refreshments including coffee will be available before, during and after the meet for the swimmers.

**Timing:** Colorado Electronic Timing System will be used during the meet. Splits will be taken by the system and will be posted in the pool area with the final results.

**Awards:** Awards will be Great Lakes Aquatics ribbons for first through sixth place. Age groups are to be awarded in the following manner (male and female in each):

7 & Under	8 yrs.	9 yrs.	10 yrs.	11 yrs.
12 yrs.	13-14 yrs.	15-18 yrs.	19-24 yrs.	25-29 yrs.

five year increments as delineated by USMS.

**Results:** Results will be mailed to each club entering five or more swimmers. Results may be purchased for \$5.00.

**Additional Information:** Vince Gallant (616)349-9873.

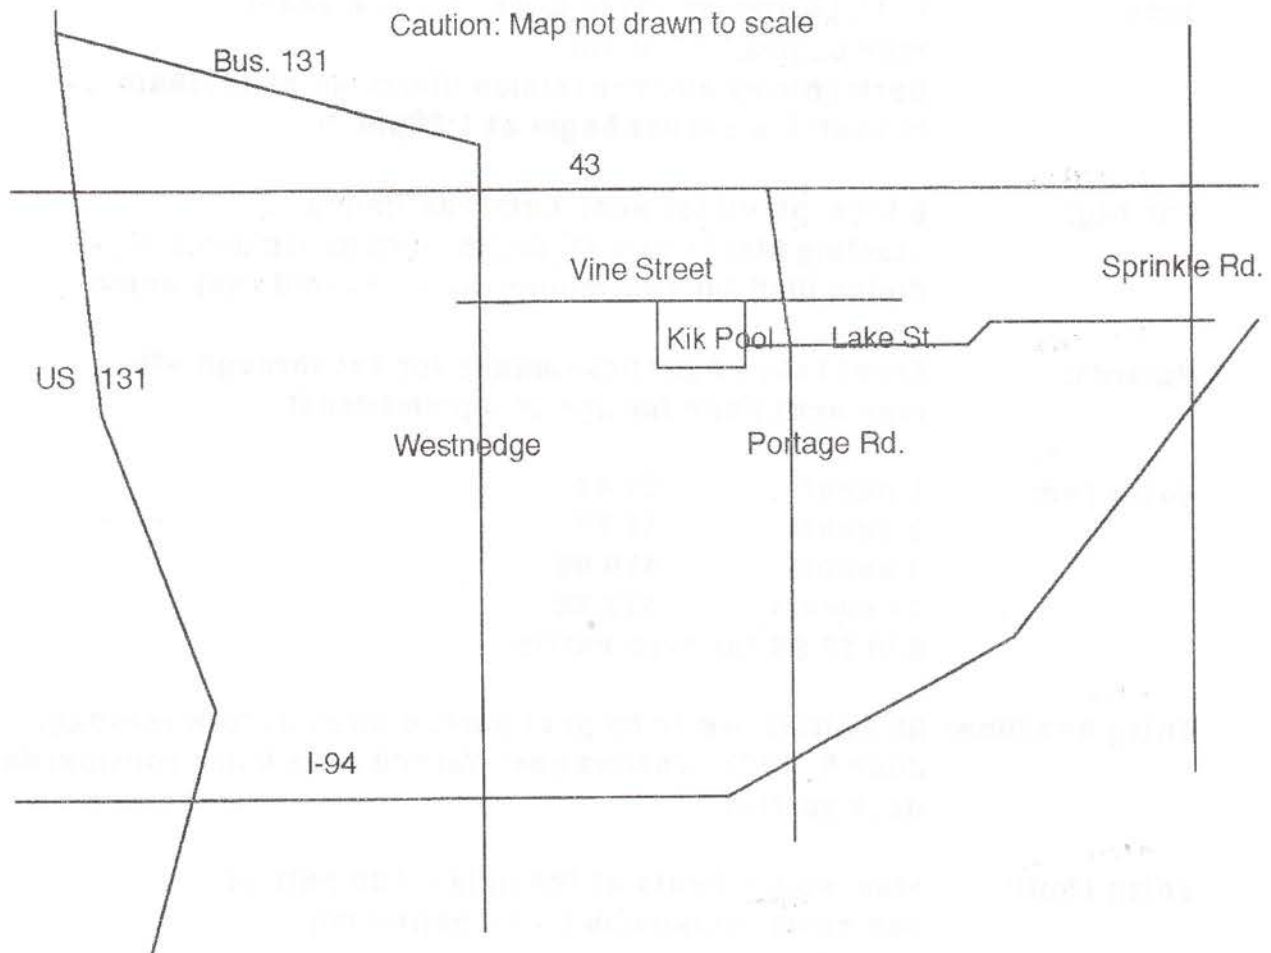

### Directions to the Nicholas Kik Family Aquatic Center in Upjohn Park

**From the north:** US 131 South to Business 131 exit. Business 131 (turns into Westnedge Avenue) south to Vine Street (approximately 8 miles, mostly expressway). Vine Street east to Walter Street (approximately 1/2 mile). Turn right on Walter Street (south); pool and parking lot is at the end of first block.

**From the south:** US 131 North to I-94 East. I-94 East to Portage Road (exit 78). Portage Road north to Lake Street (approximately 2 1/2 miles). Turn left on Lake Street (east); pool and parking lot is at the end of the first block.

**From the west:** I-94 East to Portage Road, then use directions from the south.

**From the east:** I-94 West to Sprinkle Road/Cork Street (exit 78). Turn right on Sprinkle Road (north) to Lake Street (approximately 2 miles). Turn left on Lake Street (west) to pool (approximately 2 1/2 miles).

**Great Lakes Aquatics and City of Kalamazoo Long Course Swim Meet**

## The Wave Eater

# 1995 AWARDS

This year at the annual meeting the following two people were awarded the Chetrick and the Lawrence Awards.

Sallie Thompson our reigistrar of the past 4 years and Masters swimmer since 1989 won the Chetrick Award for Outstanding Service to Michigan Masters.

Skip Thompson of the South Oakland Seals won the Lawrence Award for Outstanding Swimmer for the year. Skip has been very involved in Masters since 1988 being a National champion on several occasions and currently holds 9 State records.

Dondero Reunion Relay Team (1965-95)
