Michigan LMSC Sanctions and Top 10 Report – 2024 Annual Meeting  
**Sanctions Report**

Meet attendance has continued to improve since the pandemic. Most every meet beat the number of swimmers from 2022-23 and this season we had 3 meets with over 100 athletes in attendance. We have also had many of our local meets with athletes from other states and Canada which I believe is a testament to how well our meets are run and the level of competition we provide.

Fall and Winter meets are full with meets every 2 weeks from October to March. I would still like to find a host for a SCM meet right before the Holidays like Dec 14 or 21 as I have found some of our athletes are traveling out of state for that one last time to achieve top 10 times. The top ten SCM calendar ends Dec 31st. If you are interested or know of a SCM pool that might be available please email me.

All of my hosts are a big fan of Patrick's online registration and getting an already set up Hytek file. Because Patrick designed this software, our hosts do not have to use Club Assistant which costs several 100 dollars. This has helped our host make more money for their programs. Also, a big part of our meet success is in our website which is managed by Jim. Jim posts our host's meet information, uploads the results, adds links, posts reminders and keeps everyone informed. These two individuals are such a big help for our hosts and also for me to do this challenging job. This is a huge bonus so I think all of us can say thank you Patrick and Jim!!

I have sent a thank you to all of our hosts with a personalized note and token of thanks so they can enjoy a meal at Panera. They do way more than just give us a chance to race!
